

REMARKS

In accordance with the foregoing, claims 1, 5 and 14 have been amended and new claim 23 has been added. Claims 1-23 are pending and under consideration.

The double patenting rejection is overcome by the attached terminal disclaimer.

The rejections based on WO '164 are overcome. Using independent claim 5 as an example, this claim recites a first and a second L-shaped tray member. In contrast, the pan of WO '164 discloses no such structure.

Furthermore, new claim 23 recites that the tray members are symmetrically arranged. This feature is also not disclosed by WO '164.

Accordingly, withdrawal of the rejections is requested.

There being no further outstanding objections or rejections, it is submitted that the application is in condition for allowance. An early action to that effect is courteously solicited.

Finally, if there are any formal matters remaining after this response, the Examiner is requested to telephone the undersigned to attend to these matters.

If there are any additional fees associated with filing of this Amendment, please charge the same to our Deposit Account No. 19-3935.

Respectfully submitted,

STAAS & HALSEY LLP
